Work Sheet 18

Rainbow Style Design & Knife Tool

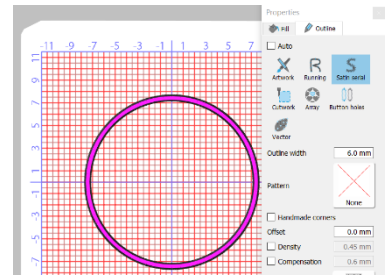

For this exercise we need to Draw a precise Circle and Centre this to your page.

Delete the Fill section, in Properties.

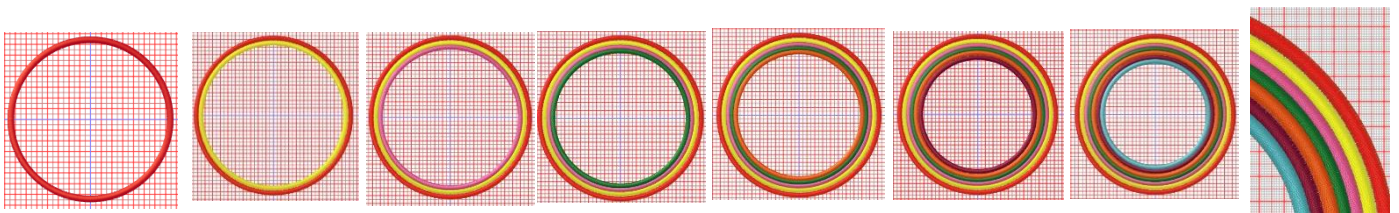

Change the Line to Satin and the Width to 6mm.

This will leave you with a Black Outlined Circle 6mm Wide. Colour Black.

Next change the Colour of the Black Line to Red and make a Copy.

Change the Copied Line Colour to Yellow and reduce in size so that the Lines are shown as below:

We are using our own Colour choices for this Rainbow Style Design:

Red, Yellow, Pink, Green, Orange, Magenta and Turquoise Blue.

Other Rainbow colours are available, you decide.

Go ahead... get creative!

Next we come to the “Knife” Tool.

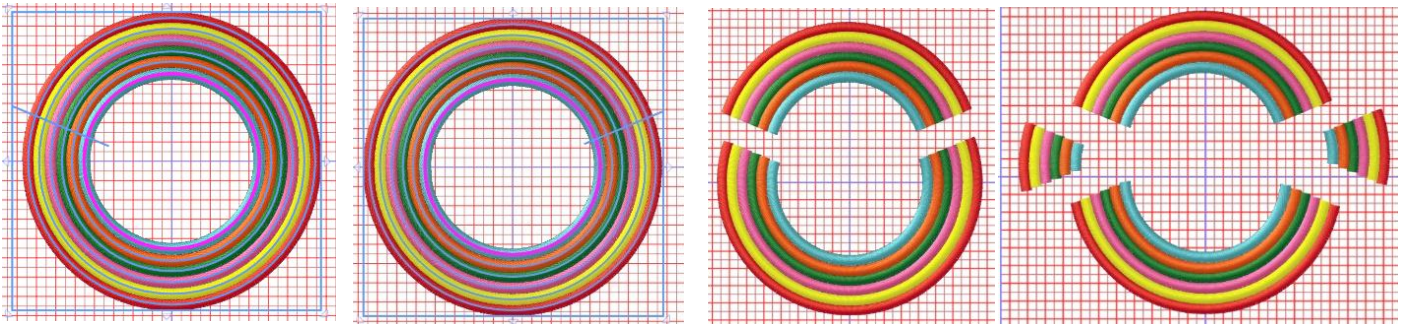

As practised on previous Work Sheets Draw your Line across One side of the Colours as shown below.

Select All and Right Click, Scroll down to “Knife” and Click Once only.

Repeat the same procedure on the opposite side.

The Circles have now been cut apart, you will be able to Select either the top or the bottom half and use as you wish.

Try cutting again in other parts of the rainbow.

Don't forget to SAVE your own Rainbow Design.

Go ahead... get creative!
